

AI Search & Knowledge Base

Decision Intelligence Brief

AI Solutions Studio | Corporate Capability Overview

Business Outcome Focus

Enable users to find trusted answers quickly through semantic search, retrieval optimization, and source-grounded response experiences.

Core Capabilities

- Document ingestion, chunking, and enrichment
- Hybrid retrieval with relevance optimization
- Citation-ready response generation pipelines
- Knowledge freshness and indexing management

Delivery & Governance

- Taxonomy and metadata strategy alignment
- Access controls by department and role
- Accuracy measurement with evaluation suites
- Governance for source quality and lifecycle

40-70%

Faster information discovery
